

## Anoto penDocuments

# From paper to digital with a sweep of your hand

Don't let paperwork slow you down. Anoto penDocuments digitally captures your handwriting as you write.

You can save, store and send documents immediately. Which means no more scanning, faxing or using couriers.

With your Anoto Digital Pen in hand, you can digitally capture handwriting anywhere, anytime.

Spend less time on paperwork and more time getting things done.

### CREATE INSTANT DIGITAL COPIES:

- Print your document with the Anoto penDocuments printer option. Anoto penDocuments can handle the most common document types.
- Mark up your documents with handwritten notes using the Anoto Digital Pen.
- When finished, simply dock the pen to your computer and a PDF of your document is instantly created, including all of your handwritten notes.

#### Printer requirements

It is strongly recommended to print the paper on an Anoto Qualified Printer. The qualified printers are listed on the Anoto penDocuments website.

#### System requirements

Microsoft® Windows® XP (SP2) / Vista® (32-bit)  
1 GHz 32-bit (x86) processor  
512 MB of system memory  
1 GB hard drive

#### The product consists of

An Anoto Digital Pen DP-201  
Anoto penDocuments software  
License for printing 1280 pages

#### Complementary products

Pattern refill PLK for printing 6144 additional pages

### NOW YOU CAN:

- Capture signatures, edits and notes digitally as you write
- Save time by eliminating the need to scan, fax and use couriers
- Quickly enter handwritten data into your information system
- Create and send digital documents from the road

#### Anoto Digital Pen and Paper technology

An Anoto Digital Pen looks and feels like a normal ballpoint pen. However, it contains an integrated digital camera and an advanced image microprocessor. Any paper can be used with a digital pen, if the Anoto dot pattern is added to the layout before printing the paper. The Anoto dot pattern consists of numerous black dots that can be read by the digital pen, but are almost invisible to the naked eye. The pen reads the pattern and registers what and where the user writes.

# Elizabeth fills out forms in the office and door-to-door

As an insurance professional, Elizabeth meets clients in a variety of places. Some days she is helping clients fill out their forms in the office, other times she goes to their homes, and sometimes she goes to the scene of an incident. Wherever she goes, a lot of paperwork is sure to follow.

Elizabeth uses Anoto penDocuments to cut down the time it takes to process her clients' claims and keep her records in order. All the forms her clients fill out are captured digitally as they write on them. If she's away from the office, Elizabeth can transfer the documents to her laptop and email them in immediately.

Having digital copies of all her forms cuts the need to have folder after folder of old documents crowding her office. But being an old hand at filing forms, she likes to keep a hard copy of everything around as back-up anyway.

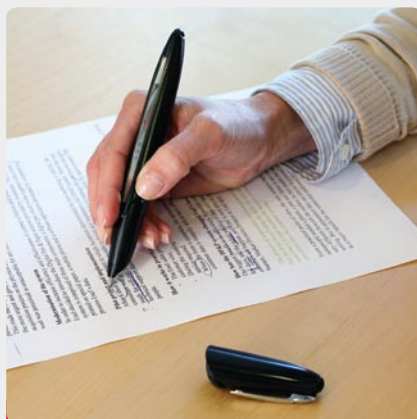

Elizabeth minimizes paperwork

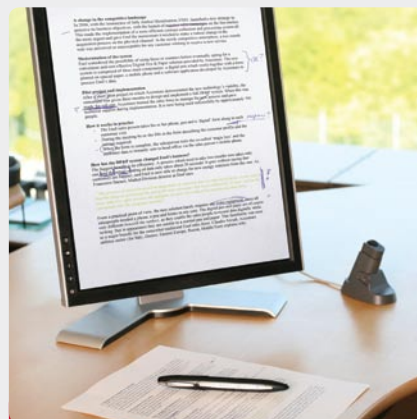

## 1. PRINT

Print your document with the Anoto penDocuments printer option. Anoto penDocuments can handle the most common document types

## 2. WRITE

Mark up your documents with handwritten notes using the Anoto Digital Pen.

## 3. PDF

When finished, simply dock the pen to your computer and a PDF of your document is instantly created, including all of your handwritten notes.
