

Press release by Seigakuin University dated January 23rd, 2008

**"Seigakuin University starts preliminary courses with Digital pens for incoming new pupils"**

The preliminary educational courses are planned in February and March for 10 days each.

The purpose of this program is to verify basic knowledge/abilities of incoming new pupils who will enter SEIG in April 2008.

The program has 8 years history, and SEIG started using Digital pens from last year.

This year, the Digital pens are used in mathematics, English, thesis, and presentations classes.

Students use in writing answers and teachers use the pens in test-marking.

The system using Anoto technology has been developed by WAO and DNP.
